

Patient interview about functional status at discharge, discharge process, follow-up care and readmission preventability (survey adapted from Howard-Anderson J, et al. Readmissions in the era of patient engagement. *JAMA Intern Med.* 2014;174[11]:1870-1872).

1	In general, would you say your health is: excellent, very good, good, fair, or poor?
2	Do you remember the discharge diagnosis?
3	Were you able to walk by yourself after discharge?
4	Were you able to get out of bed or chair by yourself during the past weeks?
5	Were you able to take a shower or bath by yourself during the past weeks?
6	Were you able to prepare your own food during the past weeks?
7	Were you able to go grocery shopping by yourself during the past weeks?
8	Attended ≥ 1 follow-up appointment?
9	Follow-up appointment with PCP arranged or already scheduled on discharge?
10	Had medications reviewed before discharge?
11	Felt all concerns were addressed before discharge?
12	Do you remember if during the hospitalization you were informed about the follow-up recommendations at discharge?
13	Who informed you about the recommendations to follow at discharge? (nurse, physician, both)
14	Are you satisfied with the information received at discharge by the healthcare team? (0-10)
15	Destination of hospital discharge (home, nursing home, intermediate long-term care facility, other)
16	When have you been notice of the day of discharge?
17	Did you feel ready for discharge?
18	Reported improved overall health condition from index admission to index discharge?
19	Contacted health care professional before readmission?
20	Do you think your readmission could have been prevented?
21	Do you think this readmission is related to the previous one?
22	During discharge did you have any symptoms? (pain, sleeping difficulty, dyspnoea, weakness, asthenia, diarrhoea, nausea or vomiting, shivers, fever, anxiety, worried, confusion)
23	Over the last 2 weeks, how often have you felt bothered by any of the following: a) Little interest or pleasure in doing things; b) Feeling down, depressed, or hopeless
