Supplemental material: Decision-making tool for virtual pathway suitability (obstetric patients)

If “No” to all six categories, patient is suitable for “Virtual” Assessment

1. Fill in a referral form.
2. Indicate “virtual”.
3. Advise patient that she will be contacted on the following working day to schedule a virtual assessment.
4. Patient will drop the referral form at the anaesthetic clinic letterbox.
5. Patients who are deemed suitable for virtual assessment but wish to be seen in person, should be referred in person

If one or more “Yes”, patient requires “In person” assessment

1. Fill in a referral form.
2. Indicate “in – person”.
3. Direct the patient to the anaesthetic clinic as “walk in”.
4. Every “walk in” patient should present to the anaesthetic clinic with her chart and referral form
Decision-making points for assessing virtual pathway suitability (obstetric patients).
