

# PRISM

## Project Charter

---

**Title**

---

---

**Group Members**

---

---

**Introduction**

---

*Please provide background information about the area of the system under examination.*

---

**What is the “Quality Gap?”**

---

*Please define your quality gap using the 6 dimensions of quality.*

---

**What is the reason for improving this gap?**

---

*Provide rationale to support efforts to improve this quality gap, including any supporting evidence or findings from needs assessments or environmental scans. What are the consequences of not making any change or improvement to the system?*

---

**Model for Improvement I: What are you trying to accomplish? (Aim Statement)**

---

*Please list your aim statement below.*

---

**Model for Improvement III: What changes can you make that will lead to an improvement? (Change)**

---

*Describe a solution or change concept which could be tested.*

---

**Model for Improvement II: How will you know that a change is an improvement? (Measures)**

---

*Please outline your family of measures below.*

---

**How will you use PDSA cycles to test, implement, spread and scale your intervention?**

---

*Outline how you would use Plan-Do-Study-Act Cycles to test your change concept, spread, and scale it within the curriculum.*

---

**What are the challenges to implementation, spread and sustainability?**

---

*What barriers or challenges do you anticipate if this proposed change concept were to be implemented? List all identified barriers and discuss any potential solutions to mitigate those challenges.*

---

**Conclusions**

---

---

**References**

---

*Please cite any references in APA format.*

---

**Appendices (as relevant)**

---

*Please include any fishbone diagrams, process maps, or other relevant appendices.*
