**SMART Aim**

Increase compliance with AHA guidelines for CPR in the PICU to 100% by December 2018.

**Global Aim**

To establish a multi-disciplinary cardiac arrest program in the PICU to improve outcomes from cardiac arrest.

**Key Drivers:**

- Timely identification of events
- Cardiac Arrest data
- Stake Holder Buy in
- Provider Education
- Data Review with team members & feedback

**Action Steps:**

- Create automatic messaging system for team leaders (LOR 2)
- Identify and recruit multidisciplinary team leaders (LOR 1)
- Create Cardiac Arrest Review Committee (LOR 1)
- Data summaries and progress reports to PICU team at monthly M&M meetings (LOR 1)
- Create cardiac arrest related education material (LOR 1)
- Timely standardized cardiac arrest data capture (LOR 1)
