

PICU Code Review –Provider Review

What were the events leading up to the arrest?

Did you have specific concerns about the patient before the arrest? If so, do you feel your concerns were heard / addressed?

What do you feel went well with the code?

Were there any equipment / med issues? (Good access / lines working well? Code cart? Meds? Etc)

Were code roles well defined?

Was there effective / closed loop communication?

What do you feel didn't go well with the code?

If you face this same situation again, what would you do differently?

Any other constructive thoughts?
